Steffany Nelson

Web Developer | Irvine, CA | (805) 628-2558 | steffany.gross@gmail.com

APPLICATIONS DEVELOPED

GamesFerret - A Mobile Game Finding Utility

LIVE - GITHUB

- Used **React.js**, **Redux.js**, and **Axios** to build a multi-layer **api** call system to populate data into the various states of the app.
- ☐ Used **Flexbox** and **Bootstrap** to create responsive and fluid layout.
- ☐ Product owner and team leader for mobile focused application, which required extensive research, constant problem solving, use of **Agile** planning methodologies, and **Git/Github** version control.
- ☐ Project utilized **React.js**, **Redux.js**, **PHP**, **MySQL**, **APIs** and various React libraries.

The World Needs Heroes - A Hero Driven Card Match Game

LIVE - GITHUB

- ☐ Using **jQuery**, created multiple components to randomly assign heroes to locations, and give them special interactions triggered by the user.
- ☐ Used **CSS Grid** to make a responsive layout.

Student Grade Table - Grade Tracking Application

LIVE - GITHUB

- ☐ With **jQuery**, assembled table to track students, grades, and courses.
- □ Stored student data in **Firebase** with **Cloud Firestore** and implemented sorting and CRUD operations.

PROFESSIONAL EXPERIENCE

Software Developer - TensorIoT - 2018

- ☐ Creating UIs for IoT data tracking using multiple frameworks including React.js, Angular and React Native.
- ☐ Working directly with clients to demo and revise projects to fit needs.
- ☐ Working extensively with **AWS Services** in a wide range of capacities.
- ☐ Creating reusable **React.js** component libraries for future company use.

Project Manager - Web Advanced - 2015-2018

- Led multiple large scale and high level website redesign projects simultaneously, while working with multiple developers.
- ☐ Worked directly in development on several **Wordpress** projects, using additional **CSS/HTML**.
- ☐ Helped implement **Agile and JIRA** processes for project management.

Project Coordinator - inhouseIT - 2014-2015

- Coordinated with vendors to schedule client service and installations.
- ☐ Developed new **ConnectWise** tracking and reporting processes.

Office Manager - Rock Solid Technology Solutions - 2007-2012

☐ Interfaced directly with technical teams to manage **ConnectWise** system ticket completion and client satisfaction.
